DETAILED ACTION

Information Disclosure Statement

1. Applicant indicates on page 13 of the response filed 20 October 2004 that an IDS was filed with the application. However, there is no evidence of an IDS in the file prior to the present response. Applicant should consider filing a petition under 37 CFR 1.181 to accept papers as timely filed with an appropriate showing (such as a PTO date stamped post card receipt) that the IDS in question was received by the Office prior to the first office action.
2. It is noted that Applicant has provided an IDS with the present response, however this IDS does not comply with 37 CFR 1.97(c) because it lacks a statement as specified in 37 CFR 1.97(e) or because it lacks the fee set forth in 37 CFR 1.17(p). It has been placed in the application file, but the information referred to therein has not been considered.

Drawings

3. The drawings were received on 20 October 2004. These drawings are approved by the Examiner.

Claim Rejections - 35 USC § 112

4. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Art Unit: 2188

5. Claims 1-18 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

As per claim 1, it is not clear where Applicant has support for the data sector ranges being “non-sequential”.

As per claim 9, it is not clear where Applicant has support for the “detected access pattern in non-sequential read commands”.

As per claim 13, it is not clear where Applicant has support for “non-sequential read commands”. While Applicant has discussed non-consecutive read commands, there is no link disclosed between these non-consecutive read commands and the “data sector addresses” (i.e. range of data sector addresses).

All dependent claims are rejected as having the same deficiencies as the claims they depend from.

6. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

7. Claims 1-8 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Art Unit: 2188

As per claim 1, it is not clear whether “non-sequential data sectors ranges” means the plural data ranges are non-sequential with each other or whether the data sectors within the data sector ranges are non-sequential.

All dependent claims are rejected as having the same deficiencies as the claims they depend from.

Conclusion

8. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.

9. Any response to this final action should be mailed to:
